

A NEW CHART OF HISTORY

Short Explanation of this CHART
This Chart is intended to exhibit a picture of History, as far as a clear view of the great events and the progress of every civilized empire appears. Each figure is carefully selected, and is placed in a place which is most proper to be seen. The foundation of a new era is laid down, and the progress of the human mind is shown. The chart is a valuable resource for understanding the course of human history from the late 17th to the late 18th century.

Benjamin Franklin L.L.D. F.R.S.
